Underground Utility Searches :

Providing a comprehensive, site centred, Stage 1 site investigation search.

Reduce your workload and the risk of unwanted surprises on site.
Access the key utility companies through a single point of contact.

The key features & benefits of these Underground Utility Searches :

- A single request and we do the hard work
- Comprehensive search of the key Underground Utilities
- Clear regional pricing, no surprise disbursements
- Searches usually completed in 15 working days
- Documents provided in PDF and as a final hard copy set
