

Raster Scale Colour

SAMPLES

Colour Raster is a small-scale, digital, raster mapping product giving a regional view, similar in content and appearance to a typical road atlas.

What is Raster Scale Colour?

The Colour Raster product is a small-scale, digital, raster mapping product that gives a regional view similar in content and appearance to a typical road atlas. It clearly shows the landscape features relevant to its scale, including cities, towns, many villages, motorways, A and B roads, railways, rivers, and some woodlands across Great Britain. You can use Colour Raster to overlay your own geographic or business data, or use it as a standalone map.

Why use Raster Scale Colour?

Easy to manage; This is a raster (flat image) product, so it's quick to load and simple to use.

A regional backdrop map; Motorways and main roads stand out, but you can also see country lanes clearly.

Clearly see places of interest; Places of interest, including camping and caravan sites are clearly shown.

Save money and benefit from simple licensing terms; 1:250,000 Scale Colour Raster is free to view, download and use for commercial, education and personal purposes.
